

Capital Improvement Program (CIP)

Section 5.08 of the City Charter requires that each year the City Manager prepare and submit to the City Commission, as part of the budget package, a Capital Improvement Program (CIP) for the 5-year period following the new budget year. The CIP is a planning document and does not authorize or fund any projects. All projects are reviewed, however, by the City Manager, Assistant City Manager, and Finance Director during the CIP preparation process.

The CIP consists of both planned capital outlay and capital projects. "Capital outlay" refers to expenditures for capital items with an initial individual cost of \$10,000 or more and an estimated useful life greater than one year. On the other hand, "capital projects" refers to capital outlay related to municipal construction. The CIP includes new facilities and improvement to existing facilities as well as the replacement of vehicles, computers, and similar items.

Anticipated purchases of more than one unit for which the individual price is less than \$1,000 but for which the aggregate cost exceeds \$10,000 are also included in the 5-Year Capital Improvement Program; however, these items will be expensed to an operating account instead of a capital account because the unit cost does not meet the capitalization threshold. In addition, in accord with GASB 34, all resurfacing and road repairs are expensed from a repair and maintenance account and not a capital account because they should be treated as repairs.

The policies that guide the development of the CIP are as follows:

1. The City has developed a multi-year plan for capital improvement that is updated annually with documentation of deviations from the plan.
2. The City will maintain its physical assets at a level adequate to protect the City's capital investment and minimize future maintenance and replacement costs. The budget will provide for the adequate maintenance and timely replacement of the capital plant and equipment from current revenues whenever possible.
3. The City has provided sufficient funds to replace and upgrade equipment as well as to take advantage of new technology, thereby ensuring that employees have safe and efficient tools to serve the public. It reflects a commitment to further automation and the use of available technology to improve productivity of the City's work force. The objective for upgrading and replacing equipment includes:
 - a. normal replacement as equipment completes its useful life
 - b. upgrades to new technology
 - c. additional equipment necessary to serve the needs of the City.
4. The City will attempt to ensure, according to its Comprehensive Land Use Plan, that the necessary infrastructure is in place in order to facilitate the orderly development of vacant land.
5. The City will use the following criteria to evaluate the relative merit of each capital project. Capital expenditures will foster goals of:
 - a. economic and neighborhood vitality;
 - b. infrastructure and heritage preservation;
 - c. capital projects that implement a component of an approved redevelopment plan;
 - d. projects specifically included in an approved replacement schedule;
 - e. projects that reduce the cost of operations, and projects that increase the cost of operations shall have identified trade-offs or objectives to support those additional costs; and
 - f. projects that significantly improve safety and reduce risk exposure.

Projects supporting private development must include satisfactory return on investment ratios or a fully documented cost/benefit analysis.

Factors Influencing the 2013-14 Capital Budget

Anticipating modest increases in tax revenues due to a slowly recovering economy, \$1.4 million (33%) of the General Fund capital projects totaling \$4.3 million that were planned a year ago for 2013-14 were either cancelled or postponed in the preparation of the 2013-14 budget. Additional cancelled and postponed expenditures for 2013-14 totaled \$0.8 million in the Road & Bridge Fund and \$17.0 million in the Utility Fund, which included \$6.2 million postponed for the Alternative Water Supply. When determining which plans would be postponed rather than cancelled, each department and division was given discretion as to which future year the postponed 2013-14 expenditures were rescheduled. See the table, "Disposition of Prior CIP" for additional information.

Alternative Water Supply (AWS) Project: The water supply requirements of the Lower East Coast Water Supply Plan, as required by the South Florida Water Management District (SFWMD), will eliminate deep well injections (3,000 feet below the surface) and recharge the Biscayne Aquifer, thereby replenishing the aquifer for future raw water demands. Included in the 5-year CIP is the construction of advanced treatment equipment at the existing Wastewater Treatment Plant. Projected total costs of the AWS Project were estimated at \$37.0 million, \$31.0 million of which are included in this 5-year CIP.

Consumption of water and wastewater services at the City of Pembroke Pines plants has decreased the last 5 years. The City of Pembroke Pines is currently renewing permits for the City's wastewater plant and, in light of the reduced consumption of water and wastewater, has requested to delay the implementation of the AWS project. No firm budget information for 2013-14 is available on the AWS Project at this time. The City of Pembroke Pines is not proposing to construct the AWS project in 2013-14.

As part of the large-user agreement, the City of Pembroke Pines pays 20% of the costs of operating the City of Hollywood's wastewater plant. The City of Hollywood is also required by the State of Florida to eliminate its current ocean outfalls and meet the required Lower East Coast Water Supply Plan. The upgrade to the City of Hollywood plant is estimated to cost \$100-200 million. The City of Pembroke Pines could be charged up to 20% of the cost of the required Hollywood upgrade, which could approximate \$20-40 million.

Overview of the Five-Year CIP

The 5-year CIP for FY 2014-15 through 2018-19 reflects the combined capital programs for the General Fund, the Road and Bridge Fund, the Municipal Construction Fund, and the Utility Fund. This year the office with responsibility for tracking the status of GO Bond projects in the Municipal Construction Fund has been unable to project future (five-year) spending patterns, and that fund has no representation in the CIP beginning in FY 2014-15. The aggregate amount for the other funds over the five-year period from 2014-15 to 2018-19 is \$153.7 million, with the Utility Fund comprising \$121.7 million (79%) of that total due in large part to activity other than the Alternative Water Supply Project. The other sizeable segment of the CIP is the General Fund, accounting for \$23.3 million (15%) and comprised in large part of vehicle purchases (\$12.3 million, 53%), which are to be mainly replacements. The capital expenditures in the five-year CIP will be funded from future operating revenues and bond proceeds.

CIP Funding Sources

The CIP for the 5-year period to fiscal year 2018-19 totals \$153.7 million. Of that total, \$31.0 million is to be financed by bond proceeds (20%), \$27.2 million (18%) from general operating revenues, \$4.0 million (3%) from fire protection special assessments, \$0.7 million (1%) from the Local Option Gas Tax, \$8.3 million (5%) from water and sewer connection fees, and \$82.5 million (54%) from other utility revenues. See the table following for annual details.

CIP Capital Costs

The projects within the CIP spending consist mainly of water and sewer projects, which account for \$121.7 million (79%) of the total. That utility component includes \$31.0 million for the Alternative Water Supply (the aquifer project described previously), \$20.2 million for replacements of water mains, and \$8.0 million for odor control at the Wastewater Treatment Plant. The largest component of spending in the public safety sector is for vehicles, totaling \$9.2 million over the five years. The annual detail can be found in the following table.

CIP Impact on the Operating Budget

The Alternative Water Supply Project, delayed from last year's plan, will not begin to affect the Utility's operating expenses until 2014-15 or later. The operating budget and the schedule of expenses associated with CIP plans will be updated in the latter part of 2013 to reflect any direction given by the City Commission after its consideration of the AWS Project at that time. The City's divisions have projected no future material operational spending to be affected by the capital spending plans identified above.

Analysis of the Disposition of CIP

As a part of the budget preparation process, departments are expected to analyze the first year of the prior year's CIP to determine whether the items planned last year for 2013-14 are still needed or affordable in the new year. Based on need, items are then submitted for inclusion in the 2013-14 budget, and the status of each previously planned item is recorded in a Disposition CIP. Note that capital-qualified operating expenses are included in the five-year CIP that are not reflected in the Capital Budget, and that the Capital Budget incorporates grant-funded activity that is not part of the five-year CIP.

In last year's CIP, the fiscal year 2013-14 planned capital expenditures for all funds were \$32.6 million, of which approximately \$2.1 million were qualified operating expenditures and \$30.5 million were capital expenditures. The General, Road and Bridge, and Utility funds accounted for 13%, 5% and 76%, respectively. The remaining 6% came from the Municipal Construction Fund, which was part of the CIP for FY 2013-14. Including grants, which are not part of the CIP, and other capital spending that does not qualify for CIP inclusion under CIP definitions, the fiscal year 2013-14

capital budget for all funds totals \$20.0 million, a reduction of \$12.6 million (39%) from the last year's CIP plan for 2013-14. This is largely due to deferred and cancelled capital spending and the uncertainty of the AWS project.

* CIP items that are expensed rather than capitalized are excluded from the numbers in this table.

General Fund: The continuing sluggishness of the economy and other constraints on the General Fund budget are reflected in the capital budget for 2013-14, which includes \$2.8 million of the \$4.3 million originally planned in last year's CIP for 2013-14. Of the \$1.4 million withdrawn from the earlier plan, \$1.1 million is being postponed to future years while \$0.3 million has been cancelled outright. The capital budget for 2013-14 includes \$4.2 million that was not part of last year's CIP plan.

A table showing the detailed disposition of items in the 2013-14 CIP has been included on separate pages following the next section.

General Fund – Details of Budget Deviation from Last Year's Plan

General Fund CIP for 2013-14	\$ 4,274,310
Less: Qualified Operating Expense items in 2013-14 CIP	(510,600)
Cancelled and Postponed 2013-14 CIP Capital items	(1,415,710)
Add: Non-CIP Capital Expenditures that are in the Proposed Capital Budget	3,816,172
Proposed 2013-14 General Fund Capital Budget	\$ 6,164,172

Utility Fund: Last year's Utility Fund CIP plan for 2013-14 was \$24.9 million. Of that amount only \$11.9 million has been carried forward into the budget for 2013-14. The remainder of \$13.0 million has been postponed to one or more future years. Appropriated capital expenditures that were not in last year's CIP plan for 2013-14 total \$1.7 million.

Utility Fund – Details of Budget Deviation from Plan

Utility Fund CIP for 2013-14	\$ 24,910,000

Proposed 2013-14 Utility Fund Capital Budget	\$ 13,550,160

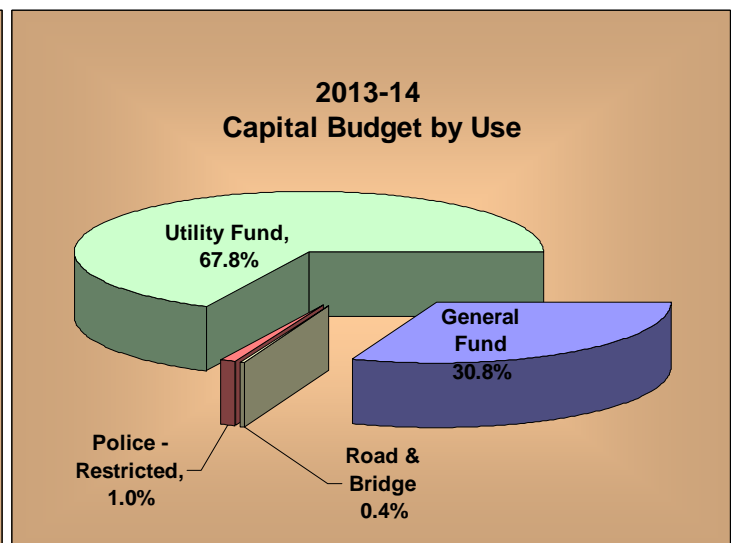

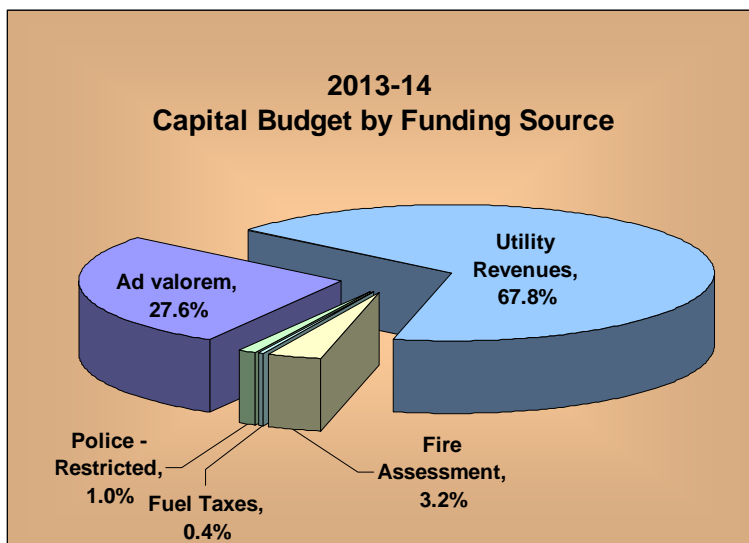

Fiscal Year 2013-14 Capital Budget

With the postponement of capital budgeting for the Alternative Water Supply, the City's capital budget is dominated by more routine capital expenditures for repair and replacements. The fiscal year 2013-14 capital budget for all funds is \$20.0 million, an increase over the \$11.6 million proposed at this time last year. The General Fund and the Utility Fund

account for 31% and 68% of the total spending, respectively. The public safety capital budget of \$3.9 million is 20% of the total capital outlay planned, and the Police division represents 64% of the public safety total. The principal components of the 2013-14 capital budget are shown below. The majority of the items are replacements and as such, have a minimal impact on the operating budget. Large elements include:

- \$0.1 million – I.T. software
- \$2.0 million – police cars
- \$0.9 million – fire truck and ambulances
- \$1.1 million – landscaping
- \$1.1 million – sewer lift stations and upgrades
- \$6.0 million – odor control system upgrade
- \$3.4 million – sewer plant rehabilitation
- \$0.5 million – AWS project
- \$0.5 million – water mains

General Obligation (G.O.) Bond Projects

In a referendum held in 2005, the voters of the City of Pembroke Pines approved the issuance of up to \$100 million of General Obligation Bonds with maturities not exceeding 30 years, to be repaid from the proceeds of ad valorem (property) taxes. This was the first time that the City used General Obligation Bonds as a funding source. Phase I General Obligation Bonds of \$47 million were issued in 2005. In 2007, another \$43 million of General Obligation Bonds were issued, constituting Phase II of the voter-approved \$100 million total.

The projects yet to be or already executed include various roadwork projects, recreational and cultural amenities, economic development, and neighborhood revitalization. Some of these projects are direct responses to requests made by the citizenry; others reflect the independent vision of the City Commission.

Municipal construction projects are budgeted on a project-length basis rather than an annual basis. General Obligation bond projects were appropriated in 2004-05 for a total of \$80 million. The Commission increased that total to \$90 million following the Phase II issuance in 2007. Because the bond-financed projects are a major undertaking, a financial status report that includes a detailed list of all bond projects, is presented herein on later pages. In addition, a location map of bond projects costing in excess of \$0.5 million is included in that section.

* Note: These items will be expensed to an operating account instead of a capital account because the unit cost does not meet the capitalization threshold. Any type of equipment or construction costing \$10,000 or more should be included in the five-year Capital Improvement Program (CIP). Anticipated purchases of more than one (1) unit for which the individual price is less than \$10,000, but for which the aggregate cost exceeds \$10,000 should also be included in the five-year CIP.

+ Note: The Alternative Water Supply will be used to convert wastewater to raw water that will be used to recharge the Biscayne Aquifer as required by the South Florida Water Management District (SFWMD). This project will include the construction of a new advanced Wastewater Treatment Plant for the western portion of the City, along with constructing advanced treatment equipment at the existing Wastewater Treatment Plant and the necessary pumping and piping systems to redirect wastewater flow from Hollywood to the City's existing treatment. This project is being funded through the issuance of bonds.

List of Bond Projects

As of March 31, 2013, Commission has approved projects totaling \$106,743,033, which amount includes \$10.8 million reimbursed to the City for transportation projects and \$0.7 million of bond-issue discounts. The GO Bond budget after those adjustments is \$96,636,293. The difference between the spending budget and the \$90,000,000 borrowed is due to interest earned, bond discounts, and miscellaneous receipts. Of the \$96,636,293, \$81,968,231 (84.82%) has been spent or encumbered through March 31. The summary report is below; details of project activities to date are provided on the pages following.

On 5/23/12, Commission added \$1,337 to this project to eliminate the budget overrun of that amount.

2.26 Walter C. Young - Portable Concession Stand & Equip.

On 2/4/09, Commission transferred \$186,442 from project 4.61 to new projects benefiting the Pasadena Lakes Optimist Athletic Programs. The new projects are numbers 2.23, 2.24, 2.25, 2.26, 4.66 & 4.67. This project was completed 12/9/09. On 5/23/12, Commission transferred the remaining balance of \$13,394 from this project to the Contingency for allocation to future projects.

2.27 Pembroke Shores YMCA Expansion

On 9/16/09, Commission approved entering into a lease agreement with the YMCA of Broward County. The agreement included language requiring the City to build a 17,000 sq-ft addition to the Pembroke Shores gymnasium facility, construct a 200-vehicle parking facility, and provide cosmetic improvements to the Pembroke Falls Aquatic Center. Cost of this project was estimated at \$5,000,000. The funding for this expansion was transferred from Project 2.22, which is no longer planned as a result of this new partnership. On 1/6/10, Commission awarded the bid to construct the facility to Kaufmann Lynn. The project was completed 7/14/11. On 5/23/12, Commission transferred the remaining balance of \$780,704 from this project to the Contingency for reallocation to future projects.

2.28 Project to House September 11 Memorial Sculpture & Construction of a Veterans' Monument

On 12/15/2010, Commission approved and awarded to MBR Construction the construction of the housing for the 9-11 Memorial Sculpture and the Construction of a Veterans Monument. At Commission direction on 9/21/2010, \$532,418 was transferred from the remaining GO Bond funds for project 2.14, the Artist Colony, as of 9/30/10, and the difference of \$149,582 was transferred from GO Bond Contingency. On 2/2/11, Commission reversed the awarding of this contract. During the same meeting, Commission approved moving the 9-11 Memorial to the City Center site. Commission directed Administration to obtain formal quotes for the projects and bring them back to Commission for

consideration. Based on 35.189(C)(5) of the City's Procurement Code, the Procurement division researched existing bids with other agencies and found two contracts under a Clay County contract; one was called ICON Shelter Systems, Inc from Bliss Products and Services, and the other was a product called Poligon from REP Services from a Palm Beach County contract. On May 4, 2011, Bliss Products and Services was awarded construction of the 9/11 shelter for \$122,165. Additional costs related to the 9-11 project include \$25,000 for moving the sculptures, \$8,000 to reinforce the slab to hold the sculptures, and \$12,000 for miscellaneous amenities for a total estimated cost of \$167,165. The total amount in encumbrances and expenditures for the Veterans Monument was \$46,539.58. The Project to House the 9-11 Memorial Sculpture and Construction of a Veterans Monument was completed by 9/1/11. On 11/21/11, a check in the amount of \$45,000 was reimbursed to the City from the 9-11 Memorial Foundation. On 5/23/12, Commission transferred the remaining balance of \$532,327 from this project to the Contingency for reallocation to future projects. This project is scheduled for completion in August 2013.

2.29 Charter High School Football Stadium

On 08/15/2012, Commission awarded a contract to Recreation Design and Construction Inc. to design and build a charter high school football stadium. The agreement included language to build a stadium with a 1,620 sq. ft. restroom/concession building, bleachers with a seating capacity of 2,262, and four sports lighting poles. The total cost of this project is \$2,466,325.

2.30 Civic Center

On October 17, 2012, the City Commission approved the execution of a contract with Manny Synalovski Associates, Inc in the amount of \$408,000 for the creation of a Design Criteria Package for a Civic/Commerce Center. Commission also decided to select an independent contractor as a consultant. The city manager engaged Realmark Research as a subcontractor for \$24,800. The total cost of this project is \$432,800. This project has been scheduled for completion by the end of April 2013.
